Conflict Minerals Certificate of Compliance

Dear Valued Customer,

New England Electropolishing Company Inc. (NEE) supports the 2010 Dodd-Frank Act and European Union EU 'Conflict Minerals' Regulation (2017/821). The objective of both these laws is to improve and increase transparency in the 3TG mineral supply chain (Tin, Tantalum, Tungsten and Gold) and prevent mining from aiding and/or financing armed forces in Conflict-Affected and High-Risk Areas (CAHRAs), including the DRC and neighbors.

NEE is a contract electropolishing company and our processes are not formulated with any conflict minerals.

Product manufacturers are responsible for determining the applicability of 3TG regulations to the products they produce and/or sell.

Should you have any further questions, please do not hesitate to contact us.

Respectfully,

Amy A. Prigmore
CEO
